

- ① Road detection (Net Grid)
- ② Semantics of Navigable Region
- ③ Perception model
- ④ Lane generation
- ⑤ Deep Geometric Network (DGN)
- ⑥ DGN (with object)
- ⑦ DGN Semantic Segmentation of unstructured Campus
- ⑧ DGN & Lane Detection (with object)
- ⑨ '7' + Object detection

~~9~~

(10) Joint operation - Road, Obstacles, Lane and Road Delimiters Detection.

(11) Obstacle detection in densely cluttered environment.

(12) '11' + Semantic Segmentation
